50X1-HUM

1. A Mr. Wan Chin is chief manager of the South China Government office handling tungsten concentrates. HAN King-tin is assistant manager. There is a branch office in every production center.
2. All tungsten concentrates which meet USSR specifications are being collected for shipment to the USSR. Large amounts of lower-grade concentrates are being stolen by officials whenever they can falsify the records.
3. The penalty for smuggling tungsten is as strict as the penalty for smuggling tin.
4. The Chinese Communist army has been handling the collection of tungsten in some areas of South China, as well as protecting the mining areas from bandits. However, as a result of the appearance of venality among the military, the police are regaining some of their former authority.
